

Crescent[®] Select[™]

Alpha-cellulose conservation matboard

- Crescent Select boards are 100% recyclable
- All raw components used in constructing Select matboards are bio-degradable
- We specify that only environmentally friendly colorants are used when manufacturing our surface papers. These pigments adhere to all EPA requirements and so not disperse any unsafe pollutants into the ecosystem
- Crescent recycles over a million pounds of paper and board every year from our manufacturing plant in Wheeling, Illinois. These materials are re-pulped and the fibers are reclaimed for other applications.
- Crescent only purchases paper and board from mills that source pulp from suppliers practicing responsible forest stewardship guidelines.

**OVER 25,000 TREES
PLANTED SO FAR!**
